

LIGHT ACCURATE ADAPTABLE

DESIGNED TO PERFORM IN THE WORLD'S TOUGHEST ENVIRONMENTS, THE F90 DELIVERS ACCURACY, RELIABILITY AND ADAPTABILITY WHEN YOU NEED THEM MOST.

LITHGOW ARMS BATTLE PROVEN SINCE 1912

DESIGNED TO PERFORM IN THE WORLD'S TOUGHEST ENVIRONMENTS,
THE F90 DELIVERS ACCURACY, RELIABILITY AND ADAPTABILITY WHEN
YOU NEED THEM MOST.

Backed by 100 years of experience and manufacturing of weapons for Australian soldiers since WWI to the battlefields of today, and evolved from the Austeyr family, the F90 builds on this battle proven platform to meet the needs of modern military forces. Its bullpup design for longer barrel length and optimum muzzle velocity delivers superior stopping power in a compact package.

The F90 is one of the lightest assault rifles on the market at 3.25kg, enabling fast reaction times and rapid target acquisition, a clear advantage in close quarters combat. NATO standard rails and NATO ammunition interoperability provide adaptability for a wide range of mission profiles.

Packing a punch, the F90 includes an integrated side loading 40 mm grenade launcher that can be attached in just a few seconds by the soldier — a potentially decisive capability providing flexibility on operations. The grenade launcher itself is equipped with a lightweight robust quadrant sight that ensures rapid target acquisition. It can also be used at night and is compatible with night vision goggles.

LIGHT ACCURATE ADAPTABLE

What's more, the F90 is built for the future, with a growth path that allows for the fitting of centralised power, as well as data and powered rails.

The F90 is evolved from a battle proven weapon that has been in service in Australia and 30 other countries for over two decades, and was developed via an extensive testing program with the Australian Department of Defence.

The F90 is available in three barrel lengths: 508 mm (20in), 407 mm (16in) and 360 mm (14in). Each rifle may be fitted with the 40 mm grenade launcher and grenade launcher sight.

SPECIFICATIONS

F90

- Weight: 3.25 Kg
- Barrel Length: 407 mm
- Overall Length: 701 mm

F90(G)

- Weight: 4.28 Kg
- Barrel Length: 407 mm
- Overall Length: 701 mm

F90M

- Weight: 3.39 Kg
- Barrel Length: 508 mm
- Overall Length: 802 mm

F90M(G)

- Weight: 4.41 Kg
- Barrel Length: 508 mm
- Overall Length: 802 mm

F90CQB

- Weight: 3.15 kg
- Barrel Length: 360 mm
- Overall Length: 653 mm

F90CQB(G)

- Weight: 4.18 kg
- Barrel Length: 360 mm
- Overall Length: 702 mm

• Rifle Calibre: 5.56 mm x 45 NATO • Grenade Launcher Calibre: 40 mm x 46 LV

All variants have cold hammer forged chrome lined barrels ensuring long life and precision when it's needed. Extensive use of lightweight robust materials ensures the F90 can be relied on at critical times.
